**Closing Session by the Government of Ghana**

**Date:** Friday, 22 March 2019  
**Time:** 13:00 to 13:55  
**Venue:** Main Hall  
**Status:** Open to all participants  
**Organized by:** The Government of Ghana

Ghana Day has been set aside to project Ghana’s climate action at the world scale as the host nation for the Africa Climate week. It is also the occasion to raise the climate profile within Government by highlighting Ghana’s Nationally Determined Contributions (GH-NDCs), showcasing ground-level actions and pitching possible areas of partnership.

The Ghana day will also be used to demonstrate Ghana’s commitment to achieving the Sustainable Development Goals (SDGs). This means that government institutions, Civil Society Organisations (CSOs), academia and the private sector organisations that are interested to host an event, or want to be part of the Ghana Day should be able to do so. Therefore, the Event will provide a recap of Ghana’s Investment Potentials and will involve a mix of events with the involvement of state and non-state actors.
