

Time	Organization	Title of the event	Objectives/ Summary
<b>12:30 - 12:50</b>	Ghana Cook Clean Limited	Low Carbon Investment - Biomass Cook Stoves and Biomass Briquettes	<p>CookClean Ghana Limited (CCL) is a "profit for purpose" social enterprise founded in 2010 with a vision of improving the living conditions of the low-income families in Ghana and to tackle key environmental challenges.</p> <p>The company provides households with affordable and clean cooking stove solutions, adaptable to the Ghanaian cooking context, tackling health problems created by conventional cooking and generating valuable savings for households and creating local jobs and know-how</p>
<b>12:50 - 13:10</b>	Africans Rising	Organizing the People for Climate Action: Mapping out Walkable Pathways for CSOs and Environmental Activists	<p>Further discussion on methods that appeal, materials that engage, and articulations that compel common people to take action - for climate, which can in turn mount pressure on governments and business to pay attention to emission reduction, climate crisis and the SDGs as a whole.</p>
<b>13:10 - 13:30</b>	Partnership on Sustainable, Low Carbon Transport (SLoCaT)	Transforming Urban Mobility: An Interactive Consultation	<p>The Transport Decarbonisation Alliance (TDA) was launched in 2018 as a unique collaboration to accelerate the worldwide transformation of the transport sector towards a net-zero emission mobility system before 2050. The TDA brings together countries, cities/regions, and companies, the "3 Cs", as the major drivers of sustainable, low carbon mobility. As the TDA continues to grow and accelerate its activities, it is important to reach out to countries, cities/regions, and companies in Africa, as they can offer unique perspectives on the important work of decarbonising transport. This event will sensitise participants at the Africa Climate Week to the work of the TDA and seek to bring new members from the region into the Alliance.</p>

<b>13:30 - 13:50</b>	WASCAL (the West African Science Service Centre on Climate Change and Adapted Land Use)	WASCAL's contribution and impact in the domain of Climate Change	WASCAL is a wholly West African international organization leading academic and transdisciplinary research organization, building graduate-level scientific capacity, and serving policy makers in West Africa with science-based advice on adaptation to climate change impacts and land use management. It cooperates with many agencies and universities in the region, providing a knowledge platform of excellence for its partners. WASCAL is funded by the Federal Ministry of Education and Research (BMBF), Germany and its 10 West African member countries. The side event is a Panel Discussion on innovative research and capacity building approaches in combating climate change and improving livelihoods in West Africa
